FOA ANALYSIS.docx

Eric,

I am aware Bachmann is out, that is why I copied Karen. She should receive the EAS request tomorrow and have a task Order by Thursday. If you need a verbal before then, please let me know. You can certainly discuss the project with the RM, especially if he is there with you. Just ensure that he knows he can not bill any time until the TO is officially issued.

I have also attached a copy of the FOA analysis I prepared for this Site for your records.

Mark

**Subject:** NFB Request for a New Task Order

Thanks. Is there any way to send a verbal to Guardian so we can start planning? The RM and safety officer are here at Aberdeen training with me. Also, I heard the John Bachman is out of the office. The ERRS crew needs to travel on Monday. Reserve hotels and vehicles. Make calls to subcontractors, etc.

Thanks

Regards,

Eric

John,

EAS Request # 00233, in the amount of \$300,000, is being requested for a new Guardian Task Order, proposed to be # 023, the Niagara Falls Boulevard Site. The four digit Zipcode for this Site **14304-4909**. The ERRD Director verbally authorized a total project ceiling of \$600,000, of which \$500,000 was for mitigation contracting on May 13, 2016. The funding is necessary to initiate a removal action to dispose of radioactive contaminated waste at the Site. A SOW and IGCE Selection form are attached here for reference and are also attached to the EAS request. Eric Daly is the OSC of record for this Site. The FOA requirement for this Site has been satisfied. Both ERRS contractors submitted a response to the FOA notice on September 21, 2015. Their responses were incorporated into the ERRS Selection form attached. Eric is planning to mobilize on May 23, 2016.

Please contact Eric or myself should you have any questions regarding this request.

Thanks in advance for your help,

Mark
